NEFMC ECOSYSTEM CTTE JAN 06 README FILE

NEFMC Habitat/MPA/Ecosystems Ctte Meeting

Mystic, CT - January 11, 2006

This presentation was given at the fourth meeting of the Council's Ecosystems Ctte by Council staff intern Chris Meaney (and on his own time, too...what a guy). The purpose was to provide a brief overview of the paper drafted by Chris and Chad Demarest titled "Coastal pollution and marine fisheries productivity". The complete paper is available at www.nefmc.org/ecosystems.
