NEFMC Meeting

Portland, ME - February 02, 2006

This presentation was given to the full Council. The purpose was to update the Council on the preliminary results of the Stakeholder Workshops and survey. Additionally, the Council received (essentially) the same Coastal Pollution presentation that was given to the Ecosystems Cttee on Jan 11. More details on the workshop and survey results are available at [www.nefmc.org/ecosystems](http://www.nefmc.org/ecosystems).
