Habitat Document 3 Errata

**Table - Mobile bottom-tending gear in currently open portions of the Georges Bank Habitat Alternative 6 potentially impacted by the management options. All variables represent annual estimates. Vessel sizes L >= 70 ft. Because the 'buffer' area excluded from Alternative 6B does not allow mobile bottom-tending gear fishing at the present time, these results apply equally to Alternatives 6A and 6B. This entire table was omitted from the draft posted 2/14.**

**Table 8 – Recreational fishing revenue associated with CAI. No recreational revenues were associated with CAII. Note that recreational vessels are currently not allowed in these areas. Revenue generated from MRIP data, using average annual revenue per angler by state. Annual revenue is the mean annual revenue, Individuals represents the average number of permit holders fishing in the area, and Anglers represents the average number of anglers per year. All other statistics are estimates at the trip level. Dashes indicate information censored due to privacy concerns.**

Area	Years	Annual Revenue	Individuals	Anglers	Mean Revenue	Median Revenue	SD Revenue
CAI	2006 - 2012	13,120.14	1.29	70.43	3,401.52	1,117.74	3,141.37
CAI	2008 - 2012	17,511.26	1.00	94.00	4,169.35	4,098.38	3,166.64
CAI	2010 - 2012	-	-	-	-	-	-

**Table 9 – Total number of vessels conducting mobile bottom tending gear trips in 2012 in currently open portions of the Georges Bank alternatives. Vessels are grouped by port of landing or city of registration, provided that location included at least three vessels. Cities/ports with less than three vessels each were included in the state totals only.**
