

SMALL MESH MULTISPECIES EIS Table of Contents

1.0	INTRODUCTION
2.0	EXECUTIVE SUMMARY
3.0	LIST OF ACRONYMS
4.0	BACKGROUND AND PURPOSE
4.1	Background
4.2	Purpose
4.2.1	Purpose and Need for Action
4.2.2	Notice of intent and scoping
5.0	OBJECTIVES AND GOALS
5.1.1	Objectives of the Small Mesh Multispecies FMP
5.1.2	Goals of the Alternatives to current management
6.0	ALTERNATIVES
6.1	Alternative 1 (No action)
6.2	Alternative 2
6.3	Alternative 3
6.4	Alternative 4 (Environmentally preferred alternative)
6.5	Alternatives Considered But Rejected
7.0	INDEPENDENT MANAGEMENT MEASURES
7.1	Overfishing definitions and biological reference points
7.2	Exempted fishery requirements and areas
8.0	AFFECTED ENVIRONMENT
6.1	Fishery interactions
6.1.1	Basic biology, life history of impacted stocks
6.1.2	Status and trends of abundance and biomass
6.1.3	Status and trends of bycatch in the small mesh multispecies fishery
6.1.4	Status and trends of bycatch in other fisheries
6.1.5	Impacts of past actions
6.1.6	Impacts of other fisheries
6.1.7	Impacts of future actions
6.2	Predator-prey interactions
6.2.1	Status and trends of predation on targeted species
6.2.2	Status and trends of food habits of targeted species
6.3	Protected resources
6.3.1	Endangered, threatened, and other protected species inhabiting the management area
6.3.2	Species of concern
6.3.3	Impacts of past actions to minimize fishery interactions
6.3.4	Impacts of future actions
6.4	Physical environment and Essential Fish Habitat
6.4.1	Physical environment
6.4.2	Essential Fish Habitat
6.5	Fishery-related businesses and communities
6.5.1	Fishery-related businesses
6.5.1.1	At sea businesses
6.5.1.2	Shoreside businesses
6.5.2	Communities where small mesh multispecies are landed
7.0	ENVIRONMENTAL IMPACTS OF THE ALTERNATIVES
7.1	Impacts on fishery interactions
