Summary Tables for FY 2011 Northeast Multispecies Fishery

These tables compare data for the full twelve months of the Northeast Multispecies fishing year (May-April) for fishing years 2009, 2010 and 2011. These are updates of tables included in the year-end report for fishing year 2010, and the table numbering is consistent with that document.

Tables were produced by NOAA Fisheries Service's Northeast Regional Office.

List of Tables

Table 1. Summary of major trends – includes all vessels with a valid limited access multispecies permit.

Table 2 – Total landings and revenue from all trips

Table 3 – Total landings and nominal revenue from groundfish trips.

Table 4 – Nominal value of landings of all species by state and port of landing (all trips)

Table 5 – Nominal value of landings of all species by home state and home port (all trips)

Table 6 – Nominal value of landings of groundfish by state and port of landing (all trips)

Table 7 – Nominal value of landings of groundfish by home state and home port (all trips)

Table 8 – Nominal value and landed pounds of top ten non-groundfish species landed by limited access groundfish vessels

Table 9 – Number of vessels by fishing year

Table 10 – Effort by active vessels (by size category) . Shows the number of groundfish and non-groundfish trips, with days absent and average trip length.

Table 11 – Average nominal revenue per vessel (by size category). Shows the average revenue from all species, average revenue from groundfish, and average revenue for all species on groundfish trips.

Table 12 – Average nominal revenue per trip and days absent (by size category). Shows average revenue per groundfish trip and per non-groundfish trip, average revenue per day on groundfish trips, and average revenue per day on a non-groundfish trips.

Tables 31 and 32 - Numbers of vessels with revenue from any species (all trips) and from at least one groundfish trip, respectively.

Tables 35 and 36 - Distributions of nominal revenue from all species and from groundfish respectively, (all trips) among vessels

Tables 39 and 40 - Numbers of vessels with revenue from all species and groundfish respectively, (on all trips) by cumulative quartiles (ordered high revenue to low).

Table 43 – Changes in employment indicators by vessel size category (all trips).

Table 44 – Changes in employment by home state (all trips). Shows total number of crew positions, crew trips, crew days, and crew day/crew trip.

List of Figures

Figure 1 - Cumulative landings of all species (all trips).

Figure 2. Cumulative landings of groundfish (all trips).

Figure 3. Allocated groundfish landings by species (all trips).

Figure 8. Allocated groundfish nominal revenue by species (all trips).

Figure 9. Yearly average nominal price by allocated groundfish species.

Figure 10. Yearly nominal average price of combined groundfish and non-groundfish species.

Figure 15. Number of vessels with revenue from any species by vessel size category (all trips).

Figure 16. Number of vessels with revenue from any species on at least one groundfish trip by vessel size category.

... those with no landings	474 (33%)	492 (36%)	313 (42%)	184 (29%)	474 (37%)	326 (42%)	152 (30%)

* On May 1st of the fishing year the number of vessels will equal to the number of eligibilities not in Confirmation of Permit History (CPH). Over time the number of vessels will differ from the number of eligibilities because these eligibilities can be transferred from vessel to vessel during the fishing year.

Note sector vessels plus common pool counts may exceed total vessel count because vessels may switch between sector and common pool eligibilities during the fishing year.

These numbers exclude groundfish limited access eligibilities held as Confirmation of Permit History (CPH). Starting in 2010, Amendment 16 authorized CPH owners to join Sectors and to lease DAS. For purposes of comparison, CPH vessels are not included in the data for either Sector or Common Pool.
