* Does not include Sector Carryover

Effective July 3, 2013, NOAA Fisheries reinstated the Eastern U.S./Canada Area quota monitoring methodology where catch is attributed to area fished based on vessel monitoring system (VMS), vessel trip reports (VTRs), and interactive voice recording (IVR) information. This change was retroactively applied to all data since the May 1, 2013, start of the fishing year.

For additional information contact the Sustainable Fisheries Division at (978) 281-9315.

Notice

The 2013 Quota Period began on May 1, 2013, therefore this report does not contain any landings reported prior to May 1, 2013.

Management actions for the Common Pool Program, under the authority of the Regional Administrator (such as closures and possession limits) are based upon Vessel Monitoring System (VMS) reports and other available information.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for
