* Does not include Sector Carryover

Notice

The 2012 Quota Period began on May 1, 2012, therefore this report does not contain any landings reported prior to May 1, 2012.

Management actions for the Common Pool Program, under the authority of the Regional Administrator (such as closures and possession limits) are based upon Vessel Monitoring System (VMS) reports and other available information.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report may be supplied to NOAA Fisheries Service (NMFS) from the following sources: (1) vessels via Vessel Monitoring System; (2) Vessel Trip Reports; (3) fish dealer purchase reports; and the (4) NOAA Fisheries Service Observer Program, through audited observer reports submitted by the Northeast Fisheries Science Center. Data in this report are for landings made through January 09 2012 and may be preliminary. Differences with data from previous reports are due to corrections made to the database and updates to observer data.

*On June 13, 2012, NMFS closed the Delmarva Access Area to scallop fishing and transferred the unused 2012 full-time scallop trips originally allocated to Delmarva to Closed Area I. For more information on this transfer click [here](#)

These data are the best available to NOAA's National Marine Fishery Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via Vessel Trip Reporting and the Vessel Monitoring System, and dealers via Dealer Electronic Reporting. Data may be preliminary. Discrepancies with previous reports are due to corrections made to the database.

Limited Access with Limited Access General Category IFQ Scallop Permit Sub-ACL

Report run on: January 10, 2013
 For data reported through: January 9, 2013
 Quota period: 2012
 Quota period dates: 03/01/12 to 02/28/13

Date	Meat pounds						Cumulative total	Percent of sub-ACL (309,550 lb)
	Open	Closed Area I	Nantucket Lightship	Hudson Canyon	Delmarva	Monthly total		
March-12	12,257	-	-	0	0	12,257	12,257	4.0
April-12	18,285	-	-	0	0	18,285	30,542	9.9
May-12	4,573	-	-	0	0	4,573	35,115	11.3
June-12	5,412	0	0	0	0	5,412	40,527	13.1
July-12	14,855	0	0	0	-	14,855	55,382	17.9
August-12	24,892	0	0	0	-	24,892	80,274	25.9
September-12	22,091	0	1,191	0	-	23,282	103,556	33.5
October-12	32,169	0	0	0	-	32,169	135,725	43.8
November-12	19,464	0	1,950	0	-	21,414	157,139	50.8
December-12	37,069	0	0	0	-	37,069	194,208	62.7
Total	191,067	0	3,141	0	0	194,208		

The total allowable catches (TACs) for the access areas are as follows: Closed Area I 177,490 lb; Nantucket Lightship 177,490 lb; Hudson Canyon 532,460 lb; Delmarva (closed June 13, 2012) 177,490 lb. The TACs apply to all IFQ vessels, including IFQ vessels that also have a limited access scallop permit. The LAGC fishery is not monitored relative to the access area TACs. Access area TACs are used to determine the number of allocated LAGC trips. To see the status of LAGC trips click [here](#)

These data are the best available to NOAA's National Marine Fishery Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via Vessel Trip Reporting and the Vessel Monitoring System, and dealers via Dealer Electronic Reporting. Data may be preliminary. Discrepancies with previous reports are due to corrections made to the database.

*The limited access fleet is not split into dredge and trawl components because there is insufficient observer coverage for such a stratification.

**There is no kept column for the limited access general category IFQ fleet because vessels are not allowed to retain yellowtail flounder.

For more information on the methodology used to estimate yellowtail flounder catch click [here](#)

In order to comply with data confidentiality requirements, discards for areas and/or gear types that only have 1 - 2 trips in a month will be aggregated with discards from preceding month(s) until the 3 trip minimum is met.

NOTE: This report uses in-season audited observer data (June - October 2012) and preliminary observer data (November 2012 - January 2013) for limited access trips into Nantucket Lightship; a combination of audited observer data (July - December 2010; August 2012) and in-season preliminary observer data (November 2012) for limited access general category IFQ trips into Nantucket Lightship; a combination of audited observer data (May - October 2011; March 2012) for limited access general category IFQ trawl trips in Mid-Atlantic; and the most recent 12 months of audited observer data (November 2011 - October 2012) for both fleets in Southern New England and Mid-Atlantic.

These data are the best available to NOAA's National Marine Fishery Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via Vessel Trip Reporting and the Vessel Monitoring System, and dealers via Dealer Electronic Reporting. Data may be preliminary. Discrepancies with previous reports are due to corrections made to the database.

1. The target TAL for each management area is equal to the ACT minus an assumed discard rate of 11% for the northern area and 22% for the southern area. The assumed discard rates are from the SARC 50 (data through 2009).

2. The three digit statistical areas defined below are for statistical and management purposes and may not be consistent with stock area delineation used for biological assessment (see the attached statistical chart).

Monkfish Stock Areas: Northern: 464-465, 467, 511-515, 521-522, 561-562
 Southern: 525-526, 533-534, 537-539, 541-543, 611-639

3. Landings in live weight.

4. Gear data are based on vessel trip reports.

* Fishing Year is May 1 through April 30.

¹Herring catch reported for the week ended: 1/5/2013

²Herring reported for the week ending: 1/12/2013

³Area 1A quota excludes 295 mt set-aside for fixed gear fisheries west of Cutler, ME until November 1, 2013.

As of the date this report was compiled, the New Brunswick weir fishery has not reported any landings for FY2013.

⁴Area 1A percent of quota includes current ME state only vessel herring landings.

Notice

On January 1, 2013, the 2013 Atlantic herring fishery opened with the 2012 specifications in place.

NOAA Fisheries proposed a quota reduction of 1,425 mt in Area 1A in 2013, to account for 2011 catch overages through a proposed rule published on November 13, 2013. The comment period closed on December 13, 2012. We will publish a final rule setting the 2013 Area 1A quota in the near future. Herring fishery participants will be notified of the 2013 quota change in Area 1A via VMS, radio message, and permit holder letter. If you have questions, please contact the Sustainable Fisheries Division at 978-281-9315.

The Atlantic herring fishery is monitored using data provided by herring-permitted vessels (VMS catch reports and VTRs) and Federal/state dealer data. VMS catch reports will be used to verify and determine catch when VTR and/or dealer records are unavailable, but VTR and dealer reports, once received, will determine final catch by area.

Catch reporting requirements are as follows: Limited access herring vessels report catch daily via VMS, open access herring vessels report catch weekly via the IVR system, and all herring-permitted vessels submit VTRs weekly. Failure to submit reports, including the requirement to submit a negative VTR for any week when no catch was made, has resulted in vessels being referred to the NOAA Office of Law Enforcement for investigation.

For questions regarding Atlantic herring management, please contact the Sustainable Fisheries Division at 978-281-9315. For guidance on the most recent notification and reporting requirements please click [here](#).

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report are supplied to NMFS from vessels via the Vessel Monitoring System (VMS), the Vessel Trip Report System (VTR), and the Northeast Fisheries Observer Program. Data may be preliminary. Discrepancies with

Northeast Skate Complex Wing Fishery Weekly Report

For week ending: January 5, 2012
 For data reported through: January 10, 2013
Quota Period: FY 2012
Quota Period Dates: 05/01/12 to 04/30/13

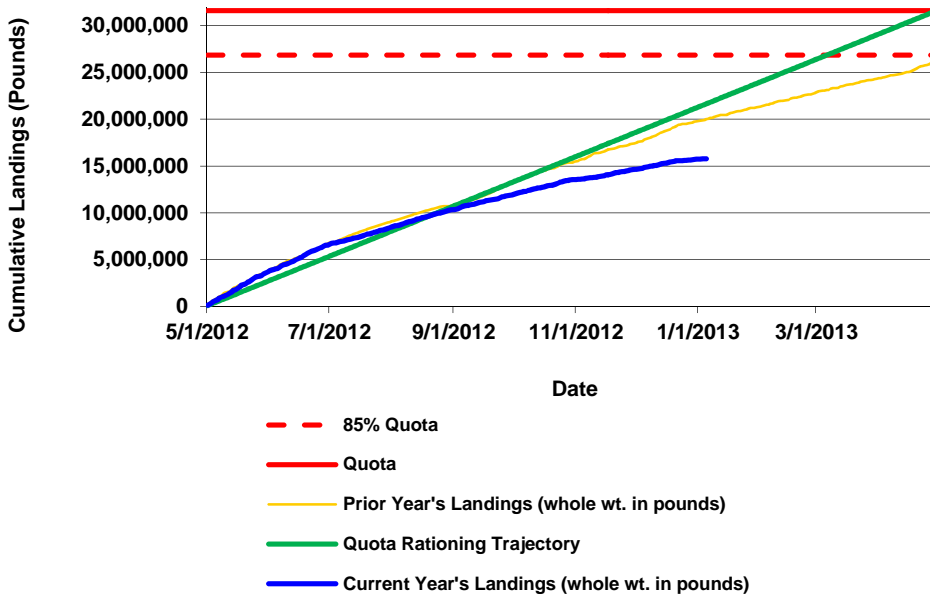

Previously Reported Landings (Whole Pounds)	Previous Weeks' Updates (Whole Pounds)	Current Week's Landings (Whole Pounds)	Cumulative Landings (Whole Pounds)	Quota (Whole Pounds)	Percent of Quota (%)
15,626,371	55,889	110,653	15,792,913	31,609,884	50

Notice: Effective September 1, 2012 the skate wing possession limit has increased to 4,100 lb of skate wings (9,307 lb whole weight). This possession limit increase is only applicable for those fishing on a NE multispecies, scallop, or monkfish Day-At-Sea (DAS). This possession limit will remain in effect until April 30, 2013 or until 85% of the skate wing quota is harvested. Vessels fishing on a NE multispecies category B DAS may only possess 220 lb of skate wings (500 lb whole weight) and non-DAS vessels may possess the incidental trip limit of 500 lb of skate wings (1,135 lb whole weight).

Northeast Skate Complex Bait Fishery Weekly Report

For week ending: January 5, 2012
 For data reported through: January 10, 2013
Quota Period: FY 2012
Quota Period Dates: 05/01/12 to 04/30/13

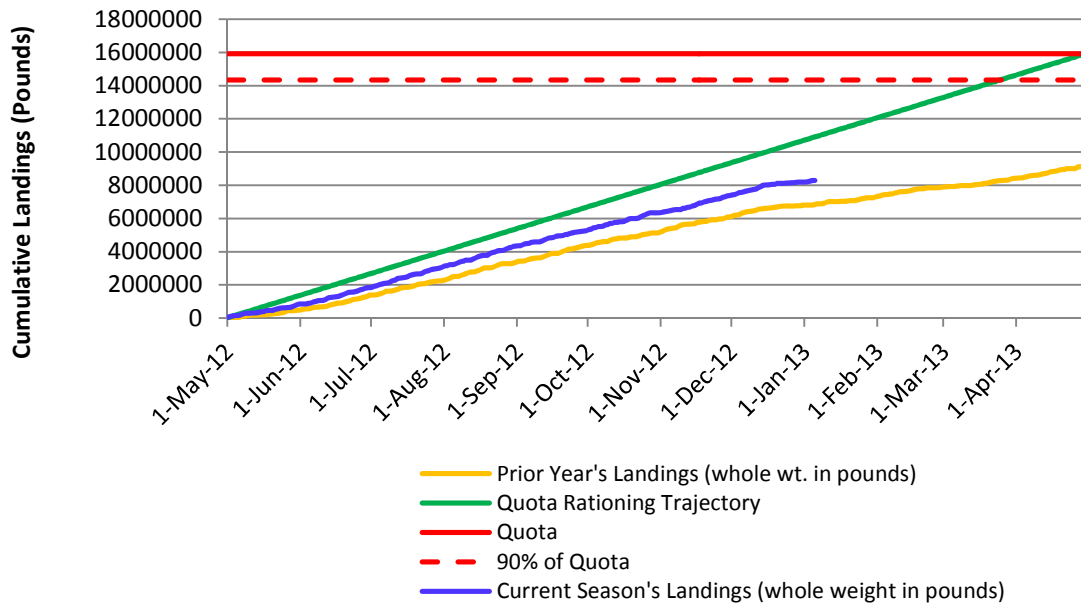

Previously Reported Landings (Pounds)	Previous Weeks' Updates (Pounds)	Current Week's Landings (Pounds)	Cumulative Landings (Pounds)	Quota (Pounds)	Percent of Quota (%)
8,146,488	47,380	88,555	8,282,423	15,923,992	52

Notice: Period 3 for the skate bait fishery began November 1, 2012, through April 30, 2013. The quota for this period is the remainder of the quota for the 2012 fishing year. The possession limit remains the same and will only be adjusted when 90% of the skate bait quota is harvested.

Small-Mesh Multispecies Weekly Report

For week ending: December 29, 2012
 For data reported through: January 3, 2012
Quota Period: 2012
Quota Period Dates: 05/01/12 to 04/30/13

Stock	Year to Date Landings (Pounds)	Quota (Pounds)	Percent of Quota (%)
<i>Northern Red Hake</i>	234,862	199,077.4	118.0

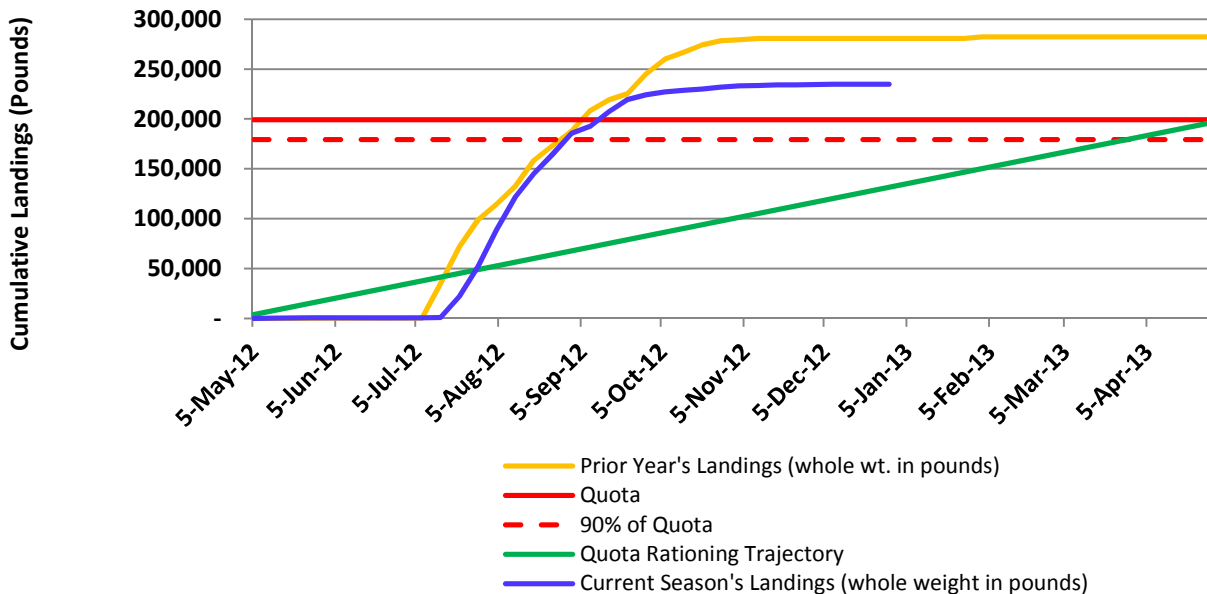

Notice: Effective September 20, 2012 NMFS reduced the northern red hake possession limit to 400 lb. This possession limit reduction is in effect until the 2013 quota becomes available on May 1, 2013. This possession limit reduction applies to the northern red hake stock area, which covers the Gulf of Maine/Georges Bank Exemption Area. For questions regarding this possession limit reduction, please contact the Sustainable Fisheries Division at 978-281-9315.
