

2000 Stock Assessment and Fishery Evaluation (SAFE) Report*
for the
Northeast Skate Complex

Prepared by the
New England Fishery Management Council
National Marine Fisheries Service

****And Source Document for a Skate Fishery Management Plan***

Final Version: January 5, 2001

TABLE OF CONTENTS

1.0	INTRODUCTION.....	2
2.0	STOCK ASSESSMENT INFORMATION	4
2.1	Species Distribution	4
2.2	Life History and Habitat Information	4
2.3	SAW 30 Information.....	4
2.3.1	Research Survey Data	5
2.3.2	Biological Data and Reference Points	75
2.3.3	Evaluation of Fishing Mortality and Stock Abundance.....	81
2.3.4	Summary of Assessment Results	87
2.3.5	SARC Comments	89
2.4	Status of Barndoor Skate Relative to the Endangered Species Act (ESA)	90
3.0	FISHERY EVALUATION INFORMATION	92
3.1	Description of Directed Skate Fisheries.....	93
3.1.1	The Skate Bait Fishery.....	93
3.1.2	The Skate Wing Fishery.....	97
3.2	Commercial Fishery Landings.....	99
3.2.1	Vessel Trip Reports vs. Dealer Weighout Reports	99
3.2.2	Total Commercial Landings	101
3.2.3	Landings by State.....	103
3.2.4	Landings by Market Category.....	104
3.2.5	Landings By Gear	105
3.2.6	Landings By Port	111
3.2.7	Fishing Areas	121
3.2.8	Canadian Landings of Skates	125
3.3	Recreational Fishery Catch.....	127
3.4	Discard Information	129
3.4.1	SAW 30 Information.....	129
3.5	Description of the Skate Processing Sector	137
3.6	Domestic and International Markets for Skates.....	138
3.7	Economic information	139
3.7.1	Economic Framework	139
3.7.2	Dockside Prices for Skates.....	141
3.7.3	Price Models	146
3.7.4	Revenues from Skate Landings.....	147
3.7.5	Skate Vessels	152
3.7.6	Skate Dealers.....	158
3.7.7	Processors.....	158
3.7.8	International Trade	158
3.8	Social and Community Information.....	160
4.0	DATA AND RESEARCH NEEDS	161

5.0	MANAGEMENT CONSIDERATIONS	162
5.1	Current Management Plans Affecting Skate Fisheries.....	163
5.1.1	The Multispecies (Groundfish) FMP	163
5.1.2	The Lobster FMP	169
5.1.3	The Atlantic Sea Scallop FMP.....	169
5.1.4	The Monkfish FMP	171
5.2	Management Considerations for Development of a Skate FMP.....	171
6.0	LIST OF CONTRIBUTORS	175
7.0	GLOSSARY OF TERMS.....	176
8.0	REFERENCES	179

LIST OF TABLES

Table 1	Skate Species Identification for Northeast Complex.....	2
Table 2	Abundance and Biomass from NEFSC Spring Surveys for Winter Skate for the Gulf of Maine to Mid-Atlantic Region.....	9
Table 3	Abundance and Biomass from NEFSC Autumn Surveys for Winter Skate for the Gulf of Maine to Mid-Atlantic Region.....	10
Table 4	Abundance and Biomass from NEFSC Winter Surveys for Winter Skate for the Georges Bank to Mid-Atlantic Region.....	11
Table 5	Abundance and Biomass from NEFSC Spring Surveys for Little Skate for the Gulf of Maine to Mid-Atlantic Region.....	21
Table 6	Abundance and Biomass from NEFSC Autumn Surveys for Little Skate for the Gulf of Maine to Mid-Atlantic Region.....	22
Table 7	Abundance and Biomass from NEFSC Winter Surveys for Little Skate for the Georges Bank to Mid-Atlantic Region.....	23
Table 8	Abundance and Biomass from NEFSC Spring Surveys for Barndoor Skate for the Gulf of Maine to Southern New England Region.....	33
Table 9	Abundance and Biomass from NEFSC Autumn Surveys for Barndoor Skate for the Gulf of Maine to Southern New England Region.....	34
Table 10	Abundance and Biomass from NEFSC Winter Surveys for Barndoor Skate for the Georges Bank to Mid-Atlantic Region.....	35
Table 11	Abundance and Biomass from NEFSC Spring Surveys for Thorny Skate for the Gulf of Maine to Southern New England Region.....	42
Table 12	Abundance and Biomass from NEFSC Autumn Surveys for Thorny Skate for the Gulf of Maine to Southern New England Region.....	43
Table 13	Abundance and Biomass from NEFSC Spring Surveys for Smooth Skate for the Gulf of Maine to Southern New England Region.....	51
Table 14	Abundance and Biomass from NEFSC Autumn Surveys for Smooth Skate for the Gulf of Maine to Southern New England Region.....	52
Table 15	Abundance and Biomass from NEFSC Spring Surveys for Clearnose Skate for the Mid-Atlantic Region.....	58
Table 16	Abundance and Biomass from NEFSC Autumn Surveys for Clearnose Skate for the Mid-Atlantic Region.....	59
Table 17	Abundance and Biomass from NEFSC Winter Surveys for Clearnose Skate for the Georges Bank to Mid-Atlantic Region.....	60
Table 18	Abundance and Biomass from NEFSC Spring Surveys for Rosette Skate for the Mid-Atlantic Region.....	68
Table 19	Abundance and Biomass from NEFSC Autumn Surveys for Rosette Skate for the Mid-Atlantic Region.....	69
Table 20	Abundance and Biomass from NEFSC Winter Surveys for Rosette Skate for the Georges Bank to Mid-Atlantic Region.....	70
Table 21	Summary of Biological Reference Points for Skates Developed by the SARC at SAW 30.....	81

Table 22	Hoenig (1987) Estimates of Fishing Mortality for Winter Skate Estimated from NEFSC Spring Trawl Survey Length Frequency Distributions	83
Table 23	Beverton-Holt (1956) and Hoenig (1987) Estimates of Fishing Mortality for Little Skate Estimated from NEFSC Spring Trawl Survey Length Frequency Distributions.....	86
Table 24	Summary of Current Status of Skate Species Relative to the SAW 30 Proposed Reference Points	89
Table 25	Total Annual Landings of Skates by Country, 1960-1999.....	102
Table 26	U.S. Landings of Skates (in Thousands of Pounds) by State, 1988-1998.....	104
Table 27	Total Annual Landings of Skates by Market Category.....	105
Table 28	Annual Skate Landings (Live Weight) by Gear Type and Market Category.....	107
Table 29	Annual Skate Landings (Live Weight) by Gear Type and Market Category as a Percentage of Total Skate Landings.....	109
Table 30	Annual Skate Landings (Live Weight) by Port and Market Category.....	112
Table 31	Annual Skate Landings (Live Weight) by Port and Market Category as a Percentage of Total Skate Landings.....	116
Table 32	Top Ten VTR-Reported Statistical Areas Fished for Skates*.....	123
Table 33	Top Three VTR-Reported Inshore Areas Fished for Skates*.....	124
Table 34	Landings of Skates (in tons) in Canadian 4VsW Exploratory Directed Fishery.....	126
Table 35	Landings of Skates (in tons) from the Atlantic Coast of Canada.....	127
Table 36	Recreational Harvest (A + B1) of Skates/Rays on Atlantic Coast.....	128
Table 37	Recreational Harvest (A + B1) in Numbers of Skates/Rays by State.....	128
Table 38	Estimated Discards of Skates by Gear Type and Target Species	130
Table 39	Estimated Discards of Skates on Otter Trawlers by Year and Primary Species Category.....	133
Table 40	Estimated Discards of Skates on Sink Gillnet Vessels by Year and Primary Species Category.....	134
Table 41	Estimated Discards of Skates on Scallop Dredge Vessels by Year and Primary Species Category.....	135
Table 42	Total Estimated Discards of Skates (in mt) by Gear Type	136
Table 43	Comparison of Estimates of Total Skate Discards (mt) by Initial Method and by Final Method.....	137
Table 44	Preliminary Regression Models of the Daily Dockside Demand for Skate Bait in the Northeast Region, 1999	146
Table 45	Preliminary Regression Models of the Daily Dockside Demand for Skate Wings in the Northeast Region, 1999	146
Table 46	Vessel Counts, Trip Counts, and Measures of Economic Importance	154
Table 47	Other Species Landed While Targeting Skates	156
