Notice

The 2012 Quota Period began on May 1, 2012, therefore this report does not contain any landings reported prior to May 1, 2012.

Management actions for the Common Pool Program, under the authority of the Regional Administrator (such as closures and possession limits) are based upon Vessel Monitoring System (VMS) reports and other available information.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report may be supplied to NOAA Fisheries Service (NMFS) from the following sources: (1) vessels via Vessel Monitoring System; (2) Vessel Trip Reports; (3) fish dealer purchase reports; and the (4) NOAA Fisheries Service Observer Program, through audited observer reports submitted by the Northeast Fisheries

**National  
Oceanic and  
Atmospheric  
Administration**

Science Center. Data in this report are for landings made through October 24 2012 and may be preliminary. Differences with data from previous reports are due to corrections made to the database and updates to observer data.

3	37,105	0	2	0	37,107	38,146	97%	39,103	103%
Total	75,649	0	104	2,373	78,125	90,358 <sup>3</sup>	86%	84,958	94%

<sup>1</sup> Herring catch reported for the week ended October 20, 2012

<sup>2</sup> Herring catch reported for the week ended October 27, 2012

<sup>3</sup> As of November 1, 2012, 3,000 mt will be allocated to Area 1A due to an under harvest by the New Brunswick weir fishery. As of October 15, 2012, the weir fishery landed 409 mt. We will consider the additional 3,000 mt allocated to Area 1A, when projecting whether herring catch has reached 95-percent of the Area 1A quota and should be closed to directed fishing. The Area 1A quota excludes 295 mt set-aside for fixed gear fisheries west of Cutler, ME until November 1, 2012.

<sup>4</sup> Includes current ME state only vessel herring landings

## Notice

Effective February 24, 2012, NMFS reduced the 2012 sub-ACLs (annual catch limit) in Areas 1A and 1B to account for overages in those areas in 2010. Therefore, the sub-ACL for Area 1A is 24,668 mt (reduced from 26,546 mt) and the sub-ACL for Area 1B is 2,723 mt (reduced from 4,362 mt) for the 2012 fishing year. If you have questions, please contact the Sustainable Fisheries Division at 978-281-9315.

The Atlantic herring fishery is monitored using data provided by herring-permitted vessels (VMS catch reports, IVR reports, VTRs) and Federal/state dealer data. Vessel reported data are compared to dealer data and dealer data are used to supplement vessel catch reports when necessary.

Catch reporting requirements are as follows: Limited access herring vessels report catch daily via VMS, open access herring vessels report catch weekly via the IVR system, and all herring-permitted vessels submit VTRs weekly. Failure to submit reports, including the requirement to submit a negative VTR for any week when no catch was made, has resulted in vessels being referred to the NOAA Office of Law Enforcement for investigation.

For questions regarding Atlantic herring management, please contact the Sustainable Fisheries Division at 978-281-9315. For guidance on the most recent notification and reporting requirements, please [click here](#)

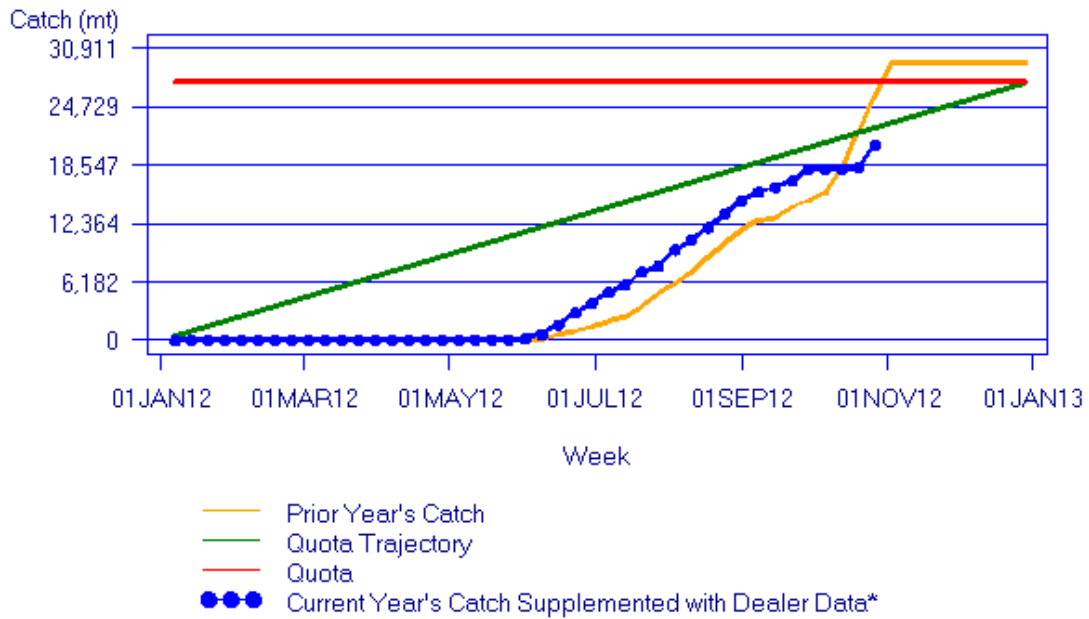

These data are the best available to NOAA's National Marine Fisheries Service (NMFS) when this report was compiled. Data for this report are supplied by vessel

12,562,614	59,382	246,082	12,868,078	31,609,884	41

**Notice: Effective September 1, 2012 the skate wing possession limit has increased to 4,100 lb of skate wings (9,307 lb whole weight). This possession limit increase is only applicable for those fishing on a NE multispecies, scallop, or monkfish Day-At-Sea (DAS). This possession limit will remain in effect until April 30, 2013 or until 85% of the skate wing quota is harvested. Vessels fishing on a NE multispecies category B DAS may only possess 220 lb of skate wings (500 lb whole weight) and non-DAS vessels may possess the incidental trip limit of 500 lb of skate wings (1,135 lb whole weight).**

# Small-Mesh Multispecies Weekly Report

For week ending: October 20, 2012  
 For data reported through: October 25, 2012  
**Quota Period:** 2012  
**Quota Period Dates:** 05/01/12 to 04/30/13

Stock	Year to Date Landings (Pounds)	Quota (Pounds)	Percent of Quota (%)
<i>Northern Red Hake</i>	227,202	199,077.4	114.1

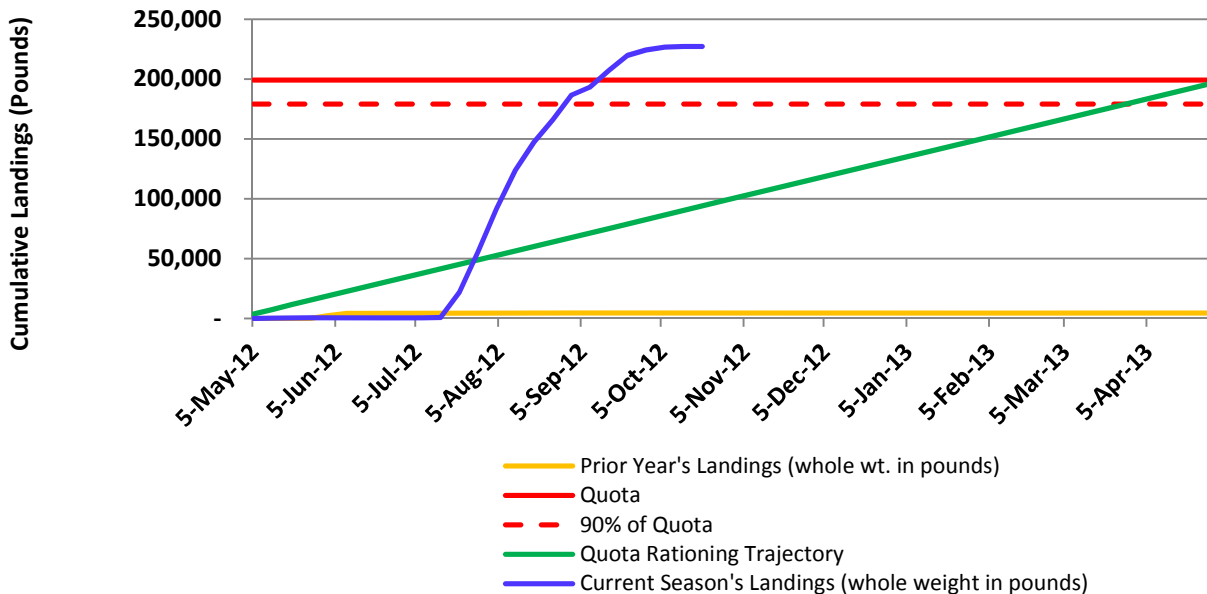

**Notice:** Effective September 20, 2012 NMFS reduced the northern red hake possession limit to 400 lb. This possession limit reduction is in effect until the 2013 quota becomes available on May 1, 2013. This possession limit reduction applies to the northern red hake stock area, which covers the Gulf of Maine/Georges Bank Exemption Area. For questions regarding this possession limit reduction, please contact the Sustainable Fisheries Division at 978-281-9315.

## Northern Red Hake

# Small-Mesh Multispecies Weekly Report

For week ending: October 6, 2012  
 For data reported through: October 11, 2012  
**Quota Period:** 2012  
**Quota Period Dates:** 05/01/12 to 04/30/13

Stock	Year to Date Landings (Pounds)	Quota (Pounds)	Percent of Quota (%)
<i>Southern Red Hake</i>	651,841	2,945,376.0	22.1

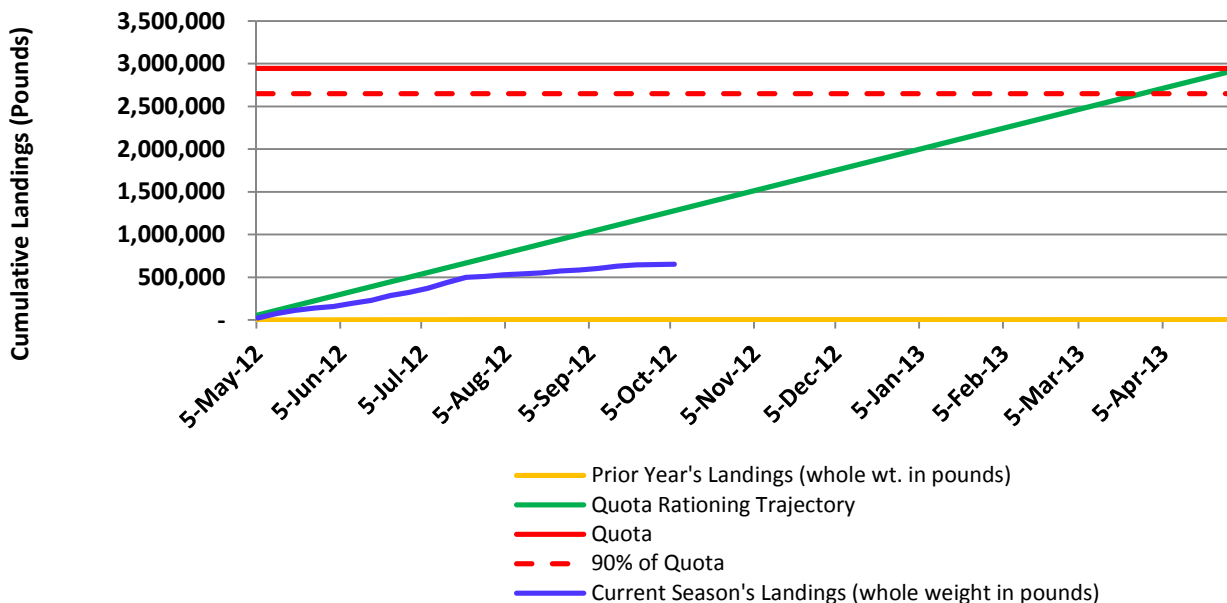

**Notice:** If 90 percent of the total allowable landings are landed for a small-mesh multispecies stock, the possession limit for that stock will be reduced to the incidental possession limit for the remainder of the fishing year. The incidental possession limit for red hake is 400 lb and silver hake and offshore hake, combined, is 1,000 lb.

## Regulations

### Notice

The final approved 2012 spiny dogfish quotas shown above published in the Federal Register on May 22, 2012, and became effective on June 21, 2012. Period 1 of the spiny dogfish fishery is open with a possession limit of 3,000 lb per trip. Vessels continue to be prohibited from landing more than one trip in any calendar day.

Negative landings can be the result of updates to the database (e.g. reported Research Set-Aside landings are subtracted from the Commercial Current Week's Landings or Previous Weeks' Updates). As a result, the Commercial Current Week's Landings or Previous Weeks' Updates can be negative.
